Contents

Volume 9 Number 1 February 1996

1 Editorial

5 *C. H. S. Ruxton, T. R. Kirk, N. R. Belton and M. A. M. Holmes.* The contribution of specific dietary patterns to energy and nutrient intakes in 7–8-year-old Scottish schoolchildren. I. Milk drinking

15 *C. H. S. Ruxton, T. R. Kirk, N. R. Belton and M. A. M. Holmes.* The contribution of specific dietary patterns to energy and nutrient intakes in 7–8-year-old Scottish schoolchildren. II. Weekday lunches

23 *C. H. S. Ruxton, T. R. Kirk, N. R. Belton and M. A. M. Holmes.* The contribution of specific dietary patterns to energy and nutrient intakes in 7–8-year-old Scottish schoolchildren. III. Snacking habits

33 *R. M. Ortega, A. M. Requejo, R. Redondo, A. M. López-Sobaler, P. Andrés, A. Ortega, E. Quintas and M. Izquierdo.* Breakfast habits of different groups of Spanish schoolchildren

43 *R. Lamb and M. S. Joshi.* The stage model and processes of change in dietary fat reduction

55 *A. J. Adamson, A. J. Rugg-Gunn, T. J. Butler and D. R. Appleton.* The contribution of foods from outside the home to the nutrient intake of young adolescents

Case study

69 *C. Noble.* Nutritional support in HIV infection: the use of enteral feeding to achieve weight gain and meet nutritional requirements in a patient with AIDS

75 Instructions for authors

77 Current Literature

Volume 9 Number 2 April 1996

87 Editorial

89 *N. Baba, K. Shaar, L. El-Sheikh Ismail and N. Adra.* Comparison of nutritional status of pre-school children at day care centres and at home from different socioeconomic backgrounds in Beirut

© 1996 Blackwell Science Ltd

105 *T. K. Beattie, A. Anderton and S. White.* Aspiration (of gastric residuals)—a cause of bacterial contamination of enteral feeding systems?

117 *A. Wise, L. Farmer, S. Mackenzie and A. McLeish.* The structure and content of nutrition education messages

127 *R. A. Holt and E. M. W. Maunder.* Is lithium-induced weight gain prevented by providing healthy eating advice at the commencement of lithium therapy?

135 *I.-B. Gustafsson, M. Öhrvall, B. Ekstrand and B. Vessby.* Moderate amounts of n-3 fatty acid enriched seafood products are effective in lowering serum triglycerides and blood pressure in healthy subjects

Short report

147 *L. Cadman and R. Wiles.* Nutritional advice in primary care: evaluation of practice nurse nutrition training programmes

159 Current Literature

Volume 9 Number 3 June 1996

171 Editorial

173 *D. Peckham, C. Leonard, S. Range and A. Knox.* Nutritional status and pulmonary function in patients with cystic fibrosis with and without *Burkholderia cepacia* colonization: role of specialist dietetic support

181 *G. Pearson, J. Rowley, L. Walker and P. Price.* Are we achieving the dietary recommendations for diabetic patients? An audit of dietary advice to diabetic patients

189 *C. M. Paisley, H. M. Lloyd, W. Brown and D. J. Mela.* Production and validation of a food frequency questionnaire to estimate dietary fat intake

207 *K. Ylönen, S. M. Virtanen, E. Ala-Venna and L. Räsänen.* Composition of diet in relation to fat intake of children aged 1–7 years

219 *L. Gummeson, I. Jonsson, M. T. Conner and E. Svensson.* Assessing factors influencing food choice among 10–16-year-old schoolboys. A pilot study with a stacking box method

231 *D. Balfour, R. Moody, A. Wise and K. Brown.* Food choice in response to computer-generated nutrition information provided about meal selections in workplace restaurants

Short report

239 *S. Miller.* The public response to an offer on national television of information about infant diets

247 Current Literature

© 1996 Blackwell Science Ltd

Volume 9 Number 4 August 1996

257 *L. J. Norman, J. E. Coleman, A. R. Watson, J. Wardell and J. H. C. Evans.* Nutritional supplements and elevated serum vitamin A levels in children on chronic dialysis

263 *B. Sidenvall, M. A.-C. Lennernäs and A.-C. Ek.* Elderly patients' meal patterns—a retrospective study

273 *J. M. E. Knapper, J. A. Tredger, D. Webb, C. Culverwell, W. Faulkner, H. Roche and C. M. Williams.* Substitution of dietary monounsaturated fatty acids for saturated fatty acids in a free-living population: a feasibility study

283 *S. A. Gibson.* Are diets high in non-milk extrinsic sugars conducive to obesity? An analysis from the Dietary and Nutritional Survey of British Adults

293 *C. Ferguson.* Monitoring the effect of varying the distribution of phenylalanine exchanges and protein substitute on serum phenylalanine—a preliminary study

303 *C. Grace and C. Summerbell.* Does provision of additional dietary information affect actual or only reported compliance to a low-fat diet over 12 weeks in hyperlipidaemic individuals? Report of a pilot study

Short report

309 *M. Carson and J. Close.* A team approach to the audit of nutritional care in community hospitals

321 Current Literature

Volume 9 Number 5 October 1996

331 From the Chairman . . .

333 *P. A. Judd.* Educating the dietitians of the future

339 *A. J. Adamson and G. Cowburn.* Community nutrition and dietetics: a survey of nutrition group members in 1995

349 *C. D. Summerbell.* Teaching nutrition to medical doctors: the potential role of the State Registered Dietitian

357 *S. Passmore.* Nutrition education in schools—educating the children

363 *I. U. Haq, R. C. Minnis, P. R. Jackson, W. W. Yeo and L. E. Ramsay.* Secondary prevention in coronary heart disease

373 *K. Trotter.* Weight cycling—can dietitians help break the pattern?

377 *S. H. Merriman.* Nutrition education in the treatment of eating disorders: a suggested 10 session course

Abstracts of presented papers

381 A1. Ethical dilemmas in dietetics—should costs count? *A. Williams*

© 1996 Blackwell Science Ltd

382 A2. Audit of feeding practice within the elderly services unit of Birmingham Heartlands Hospital. *J. Martineau, S. Bradley and L. Still*

382 A3. Effects of dietary fats in the diet. *C. M. Williams*

383 A4. Growth hormone in HIV. *J. Cotton*

384 A5. Healthy eating: consumer attitudes, beliefs and behaviour. *S. Gatenby*

Poster summaries

387 P1. Current and future training for dietitians in the UK—results of the BDA pre-registration working group survey. *A. Rogers and P. Judd*

388 P2. Expectations of pre-registration education and training of first year university nutrition and dietetic students. *M. S. Wilson, C. M. Baillie and E. A. Belton*

389 P3. Knowledge and opinions of healthcare professionals about the dietetic profession and the experiences of multi-disciplinary team care. *L. Hurn and B. K. Lewis*

389 P4. Training and working with nutrition link nurses. *C. Spruce and G. Alderslade*

390 P5. Evaluation of practice nurse nutrition training programmes. *L. Cadman and R. Wiles*

391 P6. What's in a diet sheet?—The Scottish Diet Sheet Initiative. *M. Laidlaw, N. Hunter, J. Brown, N. Kerr, S. Kilby, P. Paul and M. Thomson*

392 P7. Recruitment of volunteers from a free-living population for participation in a chronic dietary intervention study. *D. Webb, J. M. E. Knapper, C. N. Brooks, J. A. Tredger, J. Wright and C. M. Williams*

394 P8. The use of a unit system in the education of volunteers participating in a chronic intervention study. *C. N. Brooks, D. Webb, J. M. E. Knapper, J. A. Tredger and C. M. Williams*

394 P9. Diabetes knowledge in non-insulin dependent diabetes mellitus. *A. P. Mullan, V. L. Luke, M. Krespie, A. F. Hackett, J. P. Vora and G. Williams*

395 P10. Educational techniques experienced by NIDDM patients during diabetes education. *A. P. Mullan, V. L. Luke, M. Krespie, A. F. Hackett, J. P. Vora and G. Williams*

396 P11. The effect of dietary outcomes achieved by newly diagnosed patients with diabetes attending diabetic education sessions. *C. Smyth*

397 P12. Does provision of additional dietary information affect actual or only reported compliance to a low-fat diet over 12 weeks in hyperlipidaemic individuals? *C. Grace, S. Warrington and C. Summerbell*

© 1996 Blackwell Science Ltd

398 P13. Evaluation of lifestyle group education programme for people with hyperlipidaemia. *J. Davies*

399 P14. Validation of a nutritional risk assessment tool. *B. Machin*

400 P15. Attempt to validate a nutrition screening form for use with clients with learning disabilities. *F. Bryan*

401 P16. The role of at-risk nutritional assessment and nutrition support in the prevention of pressure sores in the elderly. *L. Wells*

402 P17. Prevalence of malnutrition in patients in the community. *J. Edington, P. Kon and C. N. Martyn*

403 P18. The effect of intraperitoneal amino acid dialysate on the nutritional status of patients undergoing continuous ambulatory dialysis. *J. Ashworth, M. Misra and E. A. Brown*

404 P19. The effect of guar-containing sponge cake on postprandial blood glucose and plasma insulin in healthy volunteers. *S. J. Gatenby, C. Mandara, P. A. Judd and P. R. Ellis*

405 P20. Practices and problems in pancreatic enzyme therapy in cystic fibrosis. *C. Jones and B. K. Lewis*

406 P21. Percutaneous endoscopic gastrostomy (PEG) 2-year audit 1993–1995. *J. F. Crampton and J. A. Davis*

407 P22. An investigation into the association between quality of life and nutritional status in haemodialysis patients at the Sheffield Kidney Institute. *V. Bunn and H. Redfern*

407 P23. Intake and sources of n6 fatty acids in British adults. *W. Doyle and M. Leighfield*

409 P24. An assessment of fish intake and attitudes to oily fish among a sample in South Wales. *J. Davies-Hoare and M. E. Barasi*

409 P25. Infant feeding practices of Pakistani mothers in England and Pakistan. *T. Sarwar and M. E. Barasi*

411 P26. Thinking of food: exploring food beliefs in eating disorders. *S. F. L. Kirk and A. Hill*

415 Current Literature

Volume 9 Number 6 December 1996

427 Editorial—Meeting nutritional targets: foods, fortification or supplements

429 *J. J. Reilly, T. M. Hassan, A. Braekken, J. Jolly and R. E. Day.* Growth retardation and undernutrition in children with spastic cerebral palsy

437 *G. M. Bleakney and S. McErlain.* Infant feeding guidelines: an evaluation of their effect on health professionals' knowledge and attitudes

© 1996 Blackwell Science Ltd

451 *R. G. Watt and A. Sheiham.* Dietary patterns and changes in inner city adolescents

463 *F. Pérez-Llamas, M. Garaulet, M. Nieto, J. C. Baraza and S. Zamora.* Estimates of food intake and dietary habits in a random sample of adolescents in south-east Spain

473 *I. Kilgallen and M. J. Gibney.* Parental perception of food allergy or intolerance in children under 4 years of age

Short report

479 *H. McCabe.* Cystic fibrosis—what nutritional knowledge do patients have?
